

Board

Millboard/Fibreboard - BM ▼

A tough and rigid millboard available in 1.1mm and 2.2mm thicknesses.

- Commonly used in book restoration, hand binding, furniture manufacture, automotive applications (vehicle trim), gasket manufacture, shoe/slipper manufacture.

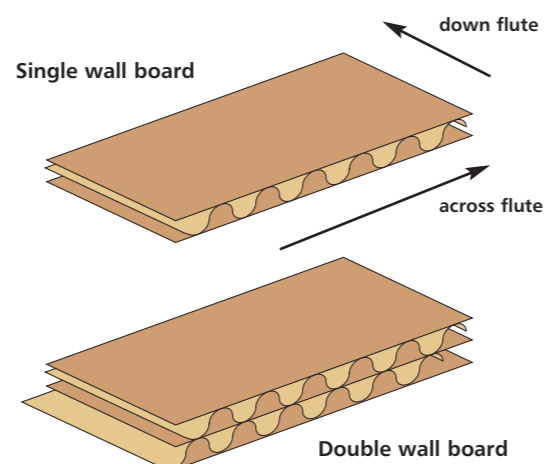

Millboard/Fibreboard

Corrugated Board - CS ▼

Available in both single and double wall pre-cut sheets to each customer's individual size requirements.

- Excellent stiffness ideally suited for backing boards.
- Can be folded around product to offer maximum protection.
- When ordering board measure across flute x down flute.

Unlined Chipboard - BULC ►

A strong and stable unlined chipboard available in 7 thicknesses and a selection of grain directions. 100% recycled fibre. Grey throughout.

- Denser than Greyboard but not as dense as Mill/Fibreboard, ideal for layer pads, general cartons and furniture manufacture.

Unlined Chipboard - Sheets

Micron	Grain Direction	Gsm	Size A mm	Size B mm	Shts per 100Kg
500	Long	348	925	1120	277
500	Long	348	800	1200	299
500	Long	348	1000	1200	239
750	Long	500	925	1150	188
1000	Long	650	925	1150	145
1000	Short	650	1270	915	132
1500	Long	1050	762	1524	82
4100	Short	2774	1220	762	39
4500	Short	3038	1030	750	43

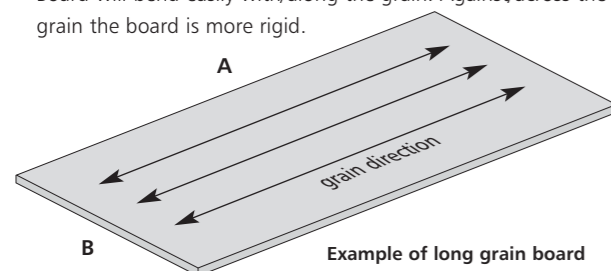

Unlined Chipboard & Greyboard

Greyboard - BULC ▼

A softer, smoother, cleaner board typically used in bookbinding, presentation boxes, board games, picture backs and furniture manufacture.

- Clean smooth surface makes it an ideal display board.
- Board will bend easily with/along the grain. Against/across the grain the board is more rigid.

Example of long grain board

Greyboard - Sheets

Micron	Grain Direction	Gsm	Size A mm	Size B mm	Shts per 100Kg
2000	Short	1200	965	915	94
2000	Long	1200	1016	1092	75
2000	Long	1200	762	1680	65
2000	Long	1200	990	1320	157
3000	Short	1800	1067	762	68
3000	Long	1800	686	1245	65

We have the ability to convert board to an endless variety of sheet sizes to suit.

It can be a very sticky business

Even the simplest job like sealing a cardboard box can be done in many ways, let Samuel Grant with over 100 years of packaging experience help you find the most appropriate for your business.

- **Polypropylene Tapes**
excellent performance from 3M, TESA and Vibac.
- **Vinyl Tapes**
extra strong solvent based adhesion for recycled cardboard.
- **Glass Fibre Tapes**
Reinforced tapes for the strongest seal.
- **Printed Tapes**
personalise your packaging with your company logo.
- **Hot Melt Glue Sticks**
helps used cardboard boxes to be recycled easily.
- **Gummed Paper Tape**
is simply recycled along with the carton.
- **Staples**
provide a strong tamper proof seal.

and if all else fails we can even develop a cardboard box that closes itself without the need for any form of sealant.

Simply call our sales department and let us know your packaging problems and we'll advise on the best product for your needs.

a wealth of packaging knowledge, making packaging simple.
