

Polypropylene Strapping Combination Tool - STC3012C/P ▶

12mm ratchet combination strapping tool. Combines tensioner, sealer and cutter all in one unit. Suitable for 12mm strapping and 12/25mm seals. Designed for use on top of parcels and pallets.

STC3012C/P

For a full and detailed product specification featuring all machine functionality and capabilities please contact our sales department.

DPST

▲ Polypropylene Bundling Tensioner - DPST

12-16mm polypropylene bundling tensioner. The ideal tool for strapping and securing round and difficult shaped products. Used in conjunction with a sealer and closed seals.

STS3212/BS

STT3215/BT

▲ 12mm Sealer - STS3212/BS

12mm sealer which crimps 12/25 or 12/32mm seals.

▲ 12-15mm Tensioner & Cutter - STT3215/BT

12-15mm tensioner and cutter. Versatile two part system ideal for different shapes and sizes of products. Can be used horizontally or vertically to palletise goods.

Please refer to P49 - 50 for a range of strapping materials available from the Samuel Grant Group

Polypropylene Strapping Combination Tool - STC3045 ▶

A heavy duty 12mm polypropylene strapping combination tool with windlass and ratchet device. Takes 12/25mm seals.

STC3045

Plastic Strapping Dispensers - DS

Samuel Grant strapping dispensers are designed to speed and simplify the use of plastic strapping. They are constructed from extra heavy duty metal tube and coated with Epoxy powder paint for long life and durability. All models incorporate an efficient braking system to prevent strap over-run.

Mobile Trolley Dispenser - DSPMD ▶

- Electro plated steel brake with strap guide.
- Plastic tool box for seals and tools.
- For use with strapping wound on plastic reels.
- Provision for two-part strapping tools.

DSPMD

DSPSD/F

◀ Floor Standing Static Dispenser with Metal Flanges - DSPSD/F

- For use with hand or machine grade strapping on 200mm cores.
- Fitted with inertia brake and strap guide.
- Built in carrying handle for ease of use.
- Accommodates strapping reel widths 150mm - 190mm.

Floor Standing Static Dispenser - DSPSD ▶

- For use with strapping wound on plastic reels.
- Electro plated steel brake with strap guide.
- Built in carrying handle for ease of use.

DSPSD

◀ Mobile Trolley Dispenser with Metal Flanges - DSPMD/F

- For use with hand/machine grade strapping on 200mm cores
- Accommodates strapping reel widths 150mm - 190mm.

DSPMD/F

Cyklop CB 130 Strapping Machine - STE CB130 ▶

The new dimension in single-handed strapping. Quick, secure, light-weight, easy to operate and low-cost. For polypropylene and polyester straps.

- Battery operated - NiMH battery 14.4V, 3.0A/h.
- Applies a tensioning force of up to 1,300N to the load.
- Strap widths: 9, 13, 16 and 19mm.
- Strap thicknesses from 0.5 to 1.2mm.

Cyklop CB 130

Cyklop M-PAC 3 Semi-Automatic Machine

◀ Cyklop M-PAC 3 Semi-Automatic Strapping Machine - STMACH M-PAC3

High quality European manufactured machine.

- Quick start up.
- Easy tension adjust.
- Fully maintained by our engineers.

Cyklop CI 89 Transit Fully-Automatic Strapping Machine - STMACH CI89 ▶

High quality European manufactured machine.

- Driven roller on table top for integration into packing line.
- High speed operation for high volume users.

Cyklop CI 89 Transit Fully-Automatic Machine

In addition to our range of strapping machinery Samuel Grant can also provide all your strapping, seals and buckle requirements - see P49 - 50

For further details please call 0113 270 7221 or visit our website at

www.samuelgrant.co.uk

Self Adhesive Tape Dispensers

With a large selection available, Samuel Grant can offer tape dispensers to cover a wide range of applications.

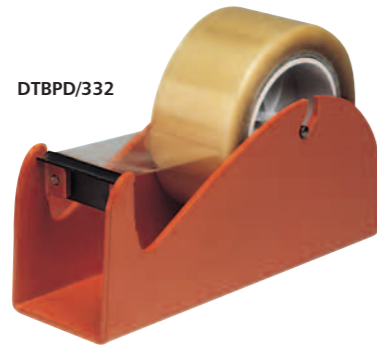

Desktop Tape Dispenser - DTDTB20/Nova ▶

Desktop tape dispenser with weighted skid proof base incorporating pen holder for use with tape up to 25mm wide on 25mm or 75mm cores.

DTDTB20/Nova

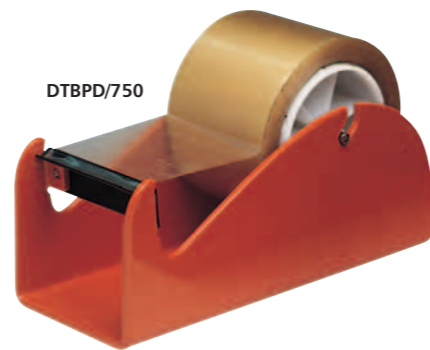

DTBPD/332

◀ Heavy Duty Bench Tape Dispenser - DTBPD/332

Heavy duty tape dispenser of steel construction with non slip rubber base. Takes tape up to 50mm wide x 66m on 75mm cores.

DTBPD/750

Heavy Duty Bench Tape Dispenser - DTBPD/750 ▶

Heavy duty bench tape dispenser of steel construction with non slip rubber base. Takes tape up to 75mm wide x 66m on 75mm cores. (wider version of the PD/332)

DTED2/50

DTED2/38

DTED2/25

◀ Enclosed Tape Dispensers - DTED2/25, DTED2/38, DTED2/50

Robust metal tape dispensers which both enclose and protect the tape. Roller action with integral serrated blade.

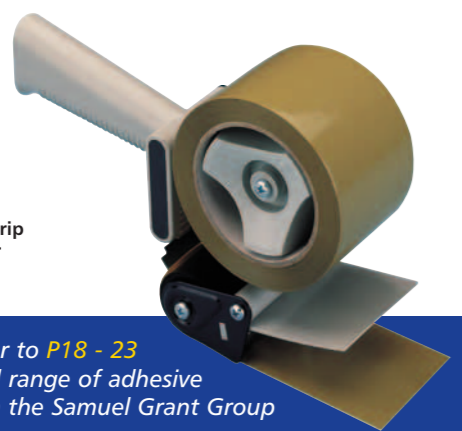

- 25, 38 and 50mm wide tapes x 66m on 75mm cores.

▼ 75mm Pistol Grip Tape Dispenser - DTCSH75

Pistol grip tape dispenser with adjustable brake and smooth handle, ideal for fast and efficient carton sealing

- Takes tape up to 75mm wide x 66m or 132m on 75mm cores.

75mm Pistol Grip Tape Dispenser

Please refer to P18 - 23 for our full range of adhesive tapes from the Samuel Grant Group

50mm Pistol Grip Tape Dispenser

▲ 50mm Pistol Grip Tape Dispenser - DTCSH11/CP

Pistol grip tape dispenser with adjustable brake and ribbed handle, ideal for fast and efficient carton sealing

- Takes tape up to 50mm wide x 66m or 132m on 75mm cores.

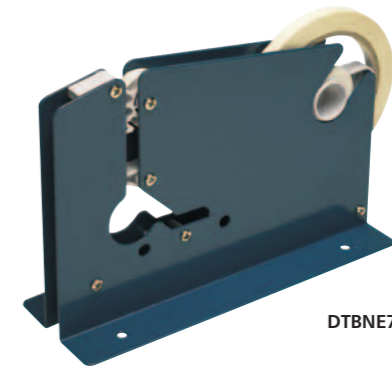

Bag Neck Sealer - DTBNE7 ▶

A compact metal dispenser for sealing plastic bags. Corrosion resistant paint with a 10mm neck opening.

- For tape up to 12mm wide x 66m on 75mm cores.

See P19 for our 9mm coloured vinyl tape for use within the back neck sealer machines

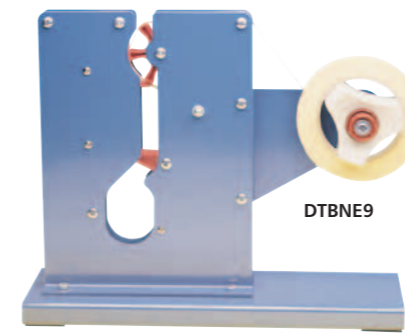

DTBNE7

◀ Heavy Duty Bag Neck Sealer - DTBNE9

A heavy duty metal dispenser for sealing larger plastic bags. Corrosion resistant paint with a 15mm neck opening.

- For tape up to 15mm wide x 66m on 75mm cores.

The Samuel Grant Samson range of polythene bags are ideal for use with the E7 & E9 bag neck sealers. See P5 for our polythene bags.

DTBNE9

Fibre/Re-inforced Tape Dispenser - DTCS4 ▶

A metal dispenser ideal for both fibre and re-inforced tapes. Tensions, seals and cuts fibre and re-inforced tapes.

- For tape up to 25mm wide on 75mm cores.

Please refer to P18 - 23 for our full range of adhesive tapes from the Samuel Grant Group

DTCS4

Counter Roll Holders - DCRH ▼

Samuel Grant counter roll holder dispensers are robustly made for long life with a maintenance free satin aluminium and enamel finish. We offer a versatile and efficient range of dispensers to dispense most wrapping papers to a maximum roll diameter of 240mm.

Each of our dispensers are supplied flat packed, complete with rubber feet, hanging brackets and wall brackets. Easy to assemble with clear instructions. The 800mm unit is fitted with a serrated blade for cutting and dispensing polypropylene films and foils.

Free Standing Unit

DTDELP/11

In addition to our range of counter roll holders Samuel Grant can also provide all your kraft paper and wrapping paper requirements - see P12 - 15

Tools & Machinery

PTS Manual Carton Stapler - STPPTS ▼

This easy to use hand operated carton stapler has been designed for accurate sealing of carton top flaps.

- Using 15mm or 18mm staples and 4 staple depth adjustments all types of boxes can be sealed.

Maximum Depth

Penetration through the upper flap as well as the lower one.

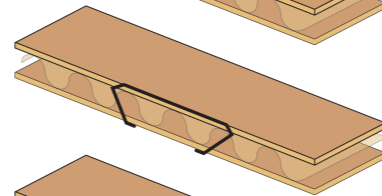

Blind Depth

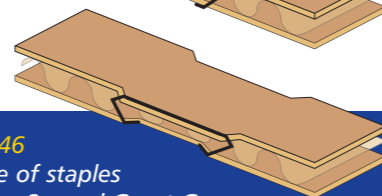

Penetration through the upper flap and part of the lower one.

Loose Clinch

Tight Clinch

Please refer to P46 for our full range of staples available from the Samuel Grant Group

Staple Remover - STSRR/3 ▶

Ergonomic and practical staple remover with firm handle grip.

- Removes almost any staple.

Heavy Duty Stapling Plier - STPR/31

Heavy duty plier with finger stop for comfort. Ideal for cartons, jiffy bags and up to 70 sheets of paper.

- Use Rapid 73 staples 6-12mm long.

Heavy Duty Tacker - STPR/34 ▶

Ideal for stapling polythene, insulation materials, carpet underlay, etc. Adjustable driver plus jam free bottom loading.

- Use Rapid 140 staples 6-14mm long.

Heavy Duty Electric Tacker - STPR/553

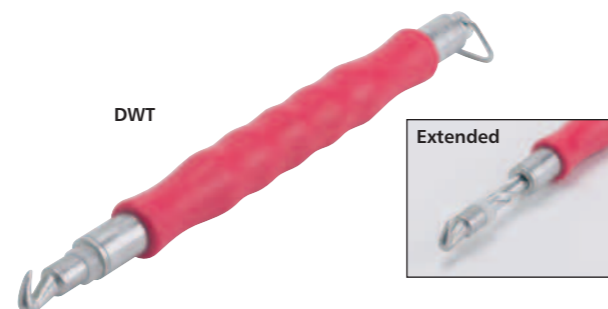

Ergonomically designed and ideal for upholsterers, decorators, carpenters and handymen. Will also staple particle board, masonite, mouldings, fabrics, insulation and decorative materials such as ceiling tiles.

- Use Rapid 53 staples 8.20mm plus Rapid 300 brads 16-20mm.

Hand Wire Tying Tool - DWT ▶

Easy to use hand held tool to twist tighten wire ties. Simply hook into tie and pull to twist and secure.

- Ideal for closing heavy duty sacks and tubing.
- Refer to P45 for wire ties available from Samuel Grant.

Tools & Machinery

High Output Hot Melt Adhesive Gun - GGP/543 ▼

High output, robust applicator with automatic standby. The high efficiency heater housing, coupled with optional plug-in temperature modules, guarantees adhesive at the right temperature. It is the ideal production tool for product assembly and packaging.

- Dispenses up to 3.5kg of 43mm adhesive per hour
- Low melt module also available.

Low Melt Adhesive Gun - GGP/100LM ▼

Lower application temperature, ideal for heat sensitive substrates such as polystyrene foam, fabrics and films. Reduces wear and tear on tools and reduces the risk of thermal burns.

- For use with LM44 12mm Low Melt Adhesive,
- Often used in schools and colleges.

Adhesive Gun Glue Specifications

Glue Type	Description	Applications
88	High performance. Pale Amber. Long Set	Tough flexible bond, glass, light gauge metals & ABS plastics
95	General purpose. Light Tan. Medium Set	Wood, fabrics, ceramics, leather & some plastics
96	Packaging. Light Tan. Fast Set	Cartons, paper & board
97	General purpose. Clear. Long Set	High viscosity, good on fabrics & foams.
98	High performance. Clear. Long Set	Wood, ceramics, light gauge metals & many plastics.
LM44	Low melt packaging. White. Fast Set	Temperature sensitive products Cartons, paper, board, wood, some plastics, expanded polystyrene & polyethylene foam.

- 12mm x 200mm sticks available in 5kg boxes. Approximately 50 sticks per kg.
- 12mm x 300mm sticks available in 5kg boxes. Approximately 34 sticks per kg.
- 43mm x 43mm slugs available in 10kg boxes. Approximately 17 slugs per kg.

3 in 1 Carton Opener - CO1 ▶

Cuts string, cord, tapes and any non-metallic strapping. Removes industrial staples and opens taped cartons. Blade protected by its own spring loaded safety cutter.

- Supplied with spare blade

General Purpose Knife - CO/K2

Ideal for cutting a wide variety of materials including veneer boards, cardboard and carpet. Supplied with sectioned sliding blade and blade lock. Fitted with blade breaking device to break off blunt leading edges.

Film Cutter - FCP ▶

Suitable for cutting most packaging film including stretch wrap, shrink wrap, bubble film and foam etc.

- Fitted with reversible guarded blade.

Should your packaging machine requirements not be available within our product brochure, please contact your nearest Samuel Grant branch.

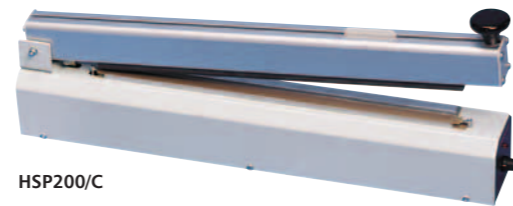

Heat Sealers - HS

The range of Samuel Grant heat sealers is built in the EU to a high specification and CE approved. Available with adjustable timer controls to suit a wide variety of films from 2 x 25mu (2 x 100 gauge) to 2 x 200mu (2 x 800gauge)

Heat Sealers - HSP200/C, HSP300/C & HSP400/C ▶

Optimum sealing lengths 190mm, 290mm and 390mm respectively.

- All machines come with cutters

HSP200/C

HSAR/LD300

◀ Layflat Tubing Dispenser - HSAR/LD300 & HSAR/LD450

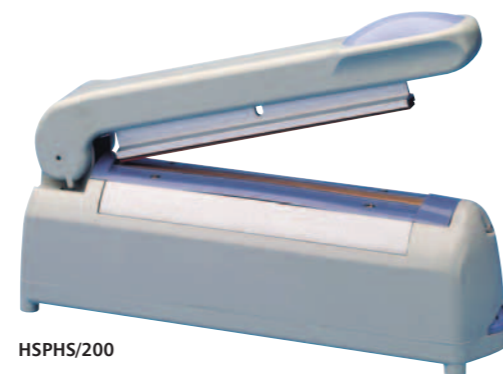

300mm and 450mm unrolling dispensers for layflat tubing.

- Used in conjunction with P300/C & P400/C heat sealers.

Low Cost 200mm Heat Sealer - HSPHS/200 ▶

Low cost 200mm heat sealer manufactured from durable plastic. Universally used by factories, shops, schools, home workers and gift outlets etc.

- Adjustable timer control to suit a wide variety of films up to 2 x 250mu (2 x 1000 gauge)

HSPHS/200

In addition to our range of heat sealers Samuel Grant can also provide all your film requirements - see P7

Automatic Magnetic Heat Sealers - HSSMS350, HSSMS500, HSSMS700 & HSSMS1000 ▶

A range of automatic magnetic operation heat sealers for consistent sealing results with a 4mm wide seal. A special order 8mm wide seal is also available.

Available with optional accessories: PD - Foot pedal, WT - Adjustable Work Table, AR - Unrolling device for film, CS - Code Seal to impress company name or logo into seal, D - Double heating element for sealing foils, laminated or gusseted bags and thicker gauge materials.

- All machines fitted with dual timer controls and cutters.
- 4 sealing widths - up to 330mm, up to 480mm, up to 680mm & up to 1000mm.
- Can seal up to 2 x 1000 gauge (2 x 250 micron)

Pallet Shrink Gun - DPSG ▶

Pallet shrink gun with cold nozzle assembly which rotates through 90 degrees for maximum flexibility and powered by propane gas with Piezo ignition. Supplied in its own carry case and complete with 8 metre hose, regulator with excess flow check valve, spanner, oil and gloves.

- Heat output 125,000 BTU/hr.
- Lightweight at 1kg.
- Must be run on minimum 47kg bottles.

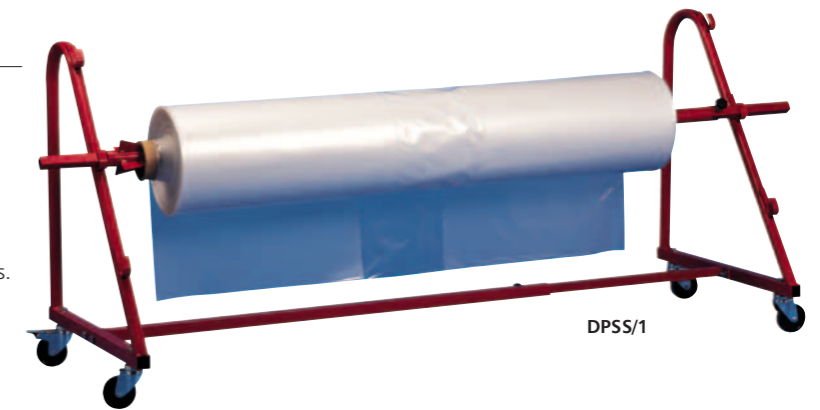

DPSG

Mobile Polythene Dispenser Stand - DPSS/1 ▶

Mobile polythene dispenser stand with 1 spindle (additional spindles available Ref: SB).

- Adjustable from 1.2m to 2m.
- Brackets to take a total of 3 bars.
- Wall or floor mounted with 2 lockable castors.

DPSS/1

Hand Stretch Wrapping Dispenser

◀ Hand Stretch Wrapping Dispenser - DSR500

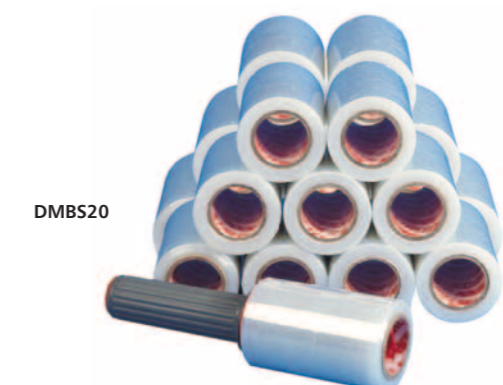

A simple and effective hand stretch wrapping dispenser. Ideal for smaller applications and occasional use.

- Lightweight, robust steel hand pallet dispenser.
- 400-500mm width film on 38, 50 or 78mm cores.
- Twist grip handle for tension control.

In addition to our range of stretch wrap systems Samuel Grant can also provide all your film requirements - see P4 - 11

Stretch Film Mini Rolls - DMBS20 ▶

The MBS20 is a simple hand held stretch film system ideal for bundling and collating items together. Simply squeeze the handle for tension and cut-off.

DMBS20

Shrink Tunnel - LS400 ▼

Samuel Grant works in close partnership with Adpak to bring you unbeatable quality and service at competitive prices. The PVE400/LS400 manual sealer and shrink tunnel combination offers a simple, economical and low maintenance solution.

All shrink films (PVC, Polythene, Polyolefin) can be used on the L sealers which incorporate constantly heated sealing wires, which combined with the rotating teflon cover give an instant clean seal in a fume free operating environment.

Manual L Sealer - PVE400 ▼

The LS400 shrink tunnel incorporates a base heater with a tunnel chamber heater, which combined with the thermostatically controlled hot air recirculating system provides a very efficient shrinkwrapping process.

- Both the PVE400 and the LS400 are bench mountable.
- Finished in a durable epoxy powder coating.
- Available with adjustable height pack table (at extra cost)

Our partnership with Adpak allows the Samuel Grant Group to offer the world's best shrink machinery at competitive prices.

Adjustable King Size Case Sealer - 700AKS ►

Designed for sealing large, uniform size cartons with speed and accuracy in long run applications. The unique upper and lower drive system uses four belts positively to convey cases at up to 30 per minute. The 3M™ Accuglide™ II taping head precisely applies the full range of 3M™ box sealing tapes.

- Compression rollers position each box for precise tape seals.
- The upper tape roll bracket ensures easier tape mounting.
- Friction brake drums prevent tape overrun and provide a more consistent tape application.
- Additional features are available as cost extra options.

Adjustable King Size Case Sealer

For a full and detailed product specification featuring all machine functionality and capabilities please contact our sales department.

Fill-Air® 2000 Inflatable Packaging System - ACMFILLAIR2000 ►

The fastest, all-electric inflatable void-fill packaging solution on the market. This versatile system creates variable cushion sizes with unmatched speed and ease of use. The Fill-Air® 2000 system creates inflatable packaging on demand at a speed of up to 200 cushions per minute, making the system ideal for companies with a high volume packaging operation.

- Variable cushion sizes.
- Ideal for on-line applications.
- Increase Productivity, Reduce Systems.

NewAir I.B.™ 200 Packaging System

◀ NewAir I.B.™ 200 Packaging System - ACMIB200

NewAir I.B.™ 200 system inflates and dispenses Barrier Bubble® packaging. Automatically inflates and dispenses 19 mm height patented Barrier Bubble™ cushioning material. The proprietary Barrier Bubble™ structure used in the film retains air longer than non-barrier polyethylene air cellular materials and out-performs other materials for cushioning and overall packaging protection.

Unmatched Cushioning Properties. Provides superior protection compared to paper packaging by retaining over 95% of its original thickness and absorbing 60% more of the transmitted shock after three drops from 76 cm.

- Fast & flexible - Dispenses 1.9 m³ (0.037 m³) of inflatable cushioning per minute
- All electric - Powered by a standard 220 / 240 volt outlet
- Completely portable - No shop air required.
- Easy to operate - Just plug it in, power it up, load a roll of film and let it run. A dedicated operator is not required.

Packer Greenfiller Waste Shredder & Converter - PCMGREENFILLER ►

Will convert your cardboard waste into re-usable protective packing. Choose either to shred material or convert into protective matting. Ideal for protection, wrapping and void fill. Dust extraction available on certain models.

The unique Greenfiller system provides a quick and easy way to protect your products. The pads are reusable, recyclable and biodegradable, and can be used as void fill and/or protective wrapping.

Packer Greenfiller Waste Shredder & Converter

www.samuelgrant.co.uk

Tools & Machinery

Pallet Stretch Wrapping System - Jolly PPMACH ▶

A semi-automatic turn table stretch wrapping machine. Its technical specification, performance and price make it the ideal alternative to manual or joystick-operated wrapping machines.

- Entry level stretchfilm machine for up to 50 pallets per week.

For a full and detailed product specification featuring all machine functionality and capabilities please contact our sales department.

Please refer to P7 - 8 for our full range of stretchfilm available from the Samuel Grant Group

Pallet Stretch Wrapping System - Rotoplat 505 PPMACH ▶

The 505 is our premium level film system bristling with features to ensure fast effective and flexible pallet wrapping. The power stretch wrapper incorporates the latest technology to take full advantage of today's modern high performance films.

- Up to 300% film pre stretch to maximise the benefits of modern high performance films.
- AETNA - The world leader in pallet stretchwrap technology.
- Shown here combining bubblewrap and stretchfilm.

Our partnership with Aetna allows The Samuel Grant Group to offer the world's best machinery at competitive prices.

High quality storage solutions made from heavy duty recycled plastic

Marmax Products Ltd

RECYCLED PLASTIC PRODUCTS

We currently use around 600 tonnes of recycled plastic each year - equivalent to over 12,000,000 bottles.

In 2006, we recycled crushed plastic bottles to the equivalent of 1,629 cubic metres of landfill.

Does not rot

Does not splinter

100% UK waste
