◀ Polypropylene Tape (Solvent) - TPP

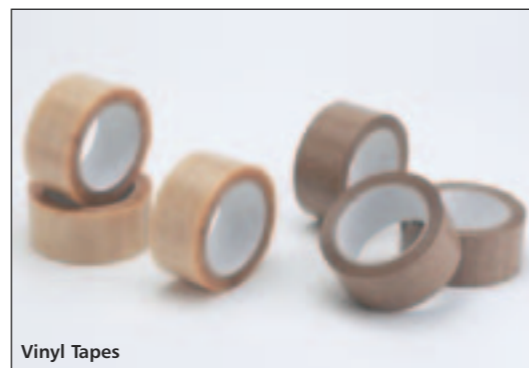

A branded general purpose, cost effective packaging tape available in both clear and tan. The solvent based adhesive provides excellent adhesion to polythene and general packaging.

- Aggressive adhesive coating ideal for polythene packing, bundling and sealing.
- 28 micron thick offering high strength.

◀ Polypropylene Tape (Hot Melt) - TPP

The hot melt based adhesive provides excellent adhesion to corrugated cases and general packaging. A branded general purpose, cost effective packaging tape available in both clear and tan.

- Aggressive adhesive coating ideal for corrugated packing, bundling and sealing.
- 28 micron thick offering high strength.

Vinyl Tapes

Please refer to machinery section P39 - 49 for a range of adhesive tape dispensing machines available from the Samuel Grant Group

Vinyl Tapes - TPVC ▶

A premium quality, high performance self adhesive vinyl packaging tape available in coloured, clear or tan.

- Unwinds quietly and smoothly from the roll.
- Solvent adhesive ensures excellent adhesion to polythene.
- Standard 35 micron thickness with 50 micron heavy duty also available.

75mm x 50m	16 rolls per pack

Double Sided Cloth Tape - TDSC ▼

A very high-tack adhesive tape on a tough woven carrier and easy to tear by hand.

- Used extensively in the carpet fitting industry.

Double Sided Cloth Tape

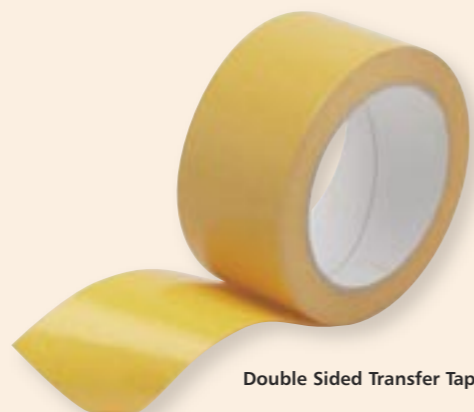

Double Sided Cloth Tape

Width x Length	Pack Size
25mm x 50m	48 rolls per pack
50mm x 50m	24 rolls per pack

Double Sided Transfer Tape - TAT ▼

A double sided transfer tape consisting of a single layer of adhesive without a carrier. Will bond most surfaces together.

- Ideal for quick applications, name plates and mounting photos.
- For use with a tape dispenser.

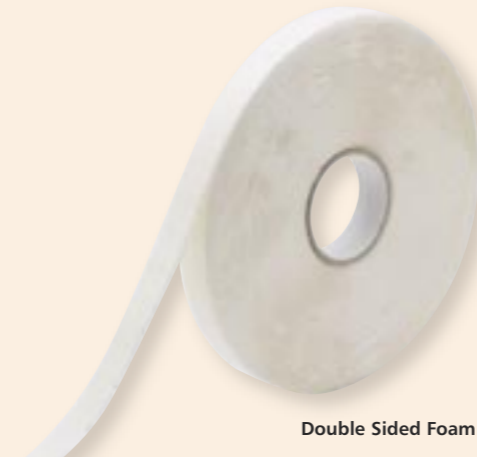

Double Sided Transfer Tape

In addition to providing packing tapes Samuel Grant can also supply all your carton requirements - See P30 - 31 for details.

Double Sided Foam Tape - TDSF ▼

A soft foam based carrier material with adhesive applied to both sides. Also available as foam tabs on a roll.

- Creates a soft cushion between the two items stuck together.

Double Sided Foam Tape

Polythene Low Tack Tape - TLT ▼

A low tack adhesive allows the tape to stick to an item with the advantage of being easily removed without leaving a residue.

- Protects smooth glossy surfaces from being easily scratched.

Polythene Low Tack Tape

Water Resistant Cloth Tape - TWRC ▼

Also known within the industry as gaffer tape, ideal for joining polythene sheeting, carpet underlay and medium temperature duct sealing. Easy to tear and unwind.

- Conformable to awkward shapes, water resistant with an aggressive adhesive.

Water Resistant Cloth Tape
